

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product Identifier

**Product form:** Article

**Product name:** AZEK TRIMLOGIC

### 1.2. Intended Use Of The Product

**Use of the substance/mixture:** Trim/Molding on the Exterior/Interior of buildings

### 1.3. Name, Address, And Telephone Of The Responsible Party

#### Company

The AZEK Company  
888 North Keyser Ave  
Scranton, PA, 18504  
570-558-8000

[www.AZEK.com](http://www.AZEK.com)

#### Manufacturer

AZEK Building Products  
888 North Keyser Ave  
Scranton, PA, 18504  
570-558-8000

### 1.4. Emergency telephone number

570-558-8000

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

#### GHS-US classification

Not Classified. Within the meaning of the OSHA Hazard Communication Standard [29 CFR 1910.1200]: this mixture is not considered a hazard when used in a manner which is consistent with the labeled directions. This mixture is considered an article in its final form.

### 2.2. Label elements

No additional information available

### 2.3. Other Hazards

**Other Hazards Not Contributing to the Classification:** Cutting, sawing, grinding, or other operations that generate dust may raise nuisance particles that can cause mechanical irritation to the skin, eyes, or respiratory tract. Polyvinyl chloride dust accumulation can present a dust explosion hazard. Take necessary measures to limit dust production, and follow applicable regulations.

### 2.4. Unknown acute toxicity (GHS US)

No data available

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable

### 3.2. Mixture

Not applicable

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

**First-aid measures general:** If injury occurs or if you feel unwell seek medical advice.

**First-aid measures after inhalation:** Not expected to present a significant inhalation hazard under anticipated conditions of normal use. Obtain medical attention if breathing difficulty persists.

**First-aid measures after skin contact:** None expected under normal conditions of use. Obtain medical attention if irritation develops or persists.

**First-aid measures after eye contact:** Adverse effects not expected from this product. Obtain medical attention if pain, blinking or redness persist.

**First-aid measures after ingestion:** Not expected to be a primary route of exposure. Obtain emergency medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms/injuries:** Not expected to present a significant hazard under anticipated conditions of normal use. Prolonged contact with large amounts of dust may cause mechanical irritation. Final product may have sharp edges.

# TRIMLOGIC

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

**Symptoms/injuries after inhalation:** Not expected to present a significant inhalation hazard under anticipated conditions of normal use.

**Symptoms/injuries after skin contact:** Not expected to be a primary route of exposure. Risk of thermal burns on contact with molten product.

**Symptoms/injuries after eye contact:** Not expected to be a primary route of exposure. Excessive dust production at the time of cutting may cause minor eye irritation.

**Symptoms/injuries after ingestion:** Ingestion is not considered a potential route of exposure.

### 4.3. Indication of any immediate medical attention and special treatment needed

If you feel unwell, seek medical advice (show the label where possible).

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

**Suitable extinguishing media:** Use extinguishing media appropriate for surrounding fire.

**Unsuitable extinguishing media:** Do not use a heavy water stream. Use of heavy stream of water may spread fire.

### 5.2. Special hazards arising from the substance or mixture

**Fire hazard:** Not considered flammable but may burn at high temperatures.

**Explosion hazard:** Product is not explosive.

**Reactivity:** Hazardous reactions will not occur under normal conditions.

### 5.3. Advice for firefighters

**Precautionary measures fire:** Exercise caution when fighting any chemical fire.

**Firefighting instructions:** Use water spray or fog for cooling exposed containers.

**Protection during firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection.

**Other information:** Do not allow run-off from fire fighting to enter drains or water courses.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**General measures:** Avoid breathing (dust, vapors, fumes from molten material). Final product may have sharp edges.

#### 6.1.1. For non-emergency personnel

**Protective equipment:** Use appropriate personal protection equipment (PPE).

**Emergency procedures:** Evacuate unnecessary personnel.

#### 6.1.2. For emergency responders

**Protective equipment:** Equip cleanup crew with proper protection.

**Emergency procedures:** Ventilate area.

### 6.2. Environmental precautions

Prevent entry to sewers and public waters.

### 6.3. Methods and material for containment and cleaning up

**For containment:** Avoid generation of dust during clean-up of spills. Sweep or vacuum the product to recover it.

**Methods for cleaning up:** Clear up spills immediately and dispose of waste safely.

### 6.4. Reference to other sections

See heading 8, exposure controls and personal protection.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Additional hazards when processed:** Avoid dust production. Final product may have sharp edges. Risk of thermal burns on contact with molten product. Cutting, sawing, grinding, or other operations that generate dust may raise nuisance particles that can cause mechanical irritation to the skin, eyes, or respiratory tract. Polyvinyl chloride dust accumulation can present a dust explosion hazard. Take necessary measures to limit dust production, and follow applicable regulations.

**Hygiene measures:** Handle in accordance with good industrial hygiene and safety procedures. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work. Do not eat, drink or smoke when using this product.

### 7.2. Conditions for safe storage, including any incompatibilities

**Storage conditions:** Store away from incompatible materials.

**Incompatible products:** Strong acids. Strong bases. Strong oxidizers.

### 7.3. Specific end use(s)

Trim/Molding on the Exterior/Interior of buildings

# TRIMLOGIC

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

The final product is considered an article and not hazardous in its final form under normal conditions of use according to 29CFR 1910.1200. The ingredients contained within this product are not expected to be bioavailable under normal conditions of use.

#### 8.2. Exposure controls

Appropriate engineering controls

: Provide adequate ventilation to minimize dust concentrations.

Personal protective equipment

: Safety glasses. Gloves. Insufficient ventilation (specifically with the accumulation of dust or vapors from molten product): wear respiratory protection.

Materials for protective clothing

: Not required for normal conditions of use. As necessary when handling hot or molten sheet, wear protective clothing.

Hand protection

: If handling hot or molten sheet wear insulated gloves, under normal conditions wear work gloves.

Eye protection

: Chemical goggles or safety glasses.

Respiratory protection

: Use NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations of dust or vapors from molten product are expected to exceed exposure limits.

Other information

: When using, do not eat, drink or smoke.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

Physical state

: Solid

Appearance

: Finished Sheet/Board. White.

Odour

: No data available

Odour threshold

: No data available

pH

: No data available

Relative evaporation rate (butylacetate=1)

: No data available

Melting point

: No data available

Freezing point

: No data available

Boiling point

: No data available

Flash Point

: No data available

Auto-ignition temperature

: No data available

Decomposition Temperature

: No data available

Flammability (solid, gas)

: No data available

Vapour pressure

: No data available

Relative vapour density at 20 °C

: No data available

Relative density

: No data available

Specific gravity

: 0.45-1.4

Solubility

: No data available

Log Pow

: No data available

Log Kow

: No data available

Viscosity, kinematic

: No data available

Viscosity, dynamic

: No data available

Explosive properties

: No data available

Oxidising properties

: No data available

Explosive limits

: Not applicable

# TRIMLOGIC

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### 9.2. Other information No additional information available

## SECTION 10: Stability and reactivity

**Reactivity** Hazardous reactions will not occur under normal conditions.

**Chemical Stability** Stable at standard temperature and pressure. Sustained temperatures above 150°F may cause slow degradation.

**Possibility Of Hazardous Reactions** Hazardous polymerization will not occur.

**Conditions To Avoid** Direct sunlight. Extremely high or low temperatures. Incompatible materials.

**Incompatible Materials** Strong acids. Strong bases. Strong oxidizers.

**Hazardous Decomposition Products** Carbon oxides (CO, CO<sub>2</sub>). Hydrogen chloride. Toxic gases.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

The final product is considered an article and not hazardous in its final form under normal conditions of use according to 29CFR 1910.1200. The ingredients contained within this product are not expected to be bioavailable under normal conditions of use.

Acute toxicity : Not classified

**Skin corrosion/irritation:** Not classified

**Serious eye damage/irritation:** Not classified

**Respiratory or skin sensitisation:** Not classified

**Germ cell mutagenicity:** Not classified

**Carcinogenicity:** Not classified

**Reproductive toxicity:** Not classified

**Specific target organ toxicity (single exposure):** Not classified

**Specific target organ toxicity (repeated exposure):** Not classified

**Aspiration hazard:** Not classified

**Symptoms/injuries after inhalation:** Not expected to present a significant inhalation hazard under anticipated conditions of normal use.

**Symptoms/injuries after skin contact:** Not expected to be a primary route of exposure. Risk of thermal burns on contact with molten product.

**Symptoms/injuries after eye contact:** Not expected to be a primary route of exposure. Excessive dust production at the time of cutting may cause minor eye irritation.

**Symptoms/injuries after ingestion:** Ingestion is not considered a potential route of exposure.

## SECTION 12: Ecological information

### 12.1. Toxicity

The final product is considered an article and not hazardous in its final form under normal conditions of use according to 29CFR 1910.1200. The ingredients contained within this product are not expected to be bioavailable under normal conditions of use.

**12.2. Persistence and degradability** No additional information available

**12.3. Bioaccumulative potential** No additional information available

**12.4. Mobility in soil** No additional information available

**12.5. Other adverse effects**

**Other information** : Avoid release to the environment.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

**Sewage disposal recommendations:** Do not empty into drains; dispose of this material and its container in a safe way.

**Waste disposal recommendations:** Dispose of waste material in accordance with all local, regional, national, and international regulations.

## SECTION 14: Transport information

In accordance with ICAO/IATA/DOT/TDG

**14.1. UN number** Not regulated for transport

**14.2. UN proper shipping name** Not regulated for transport

**14.3. Additional information**

**Other information** : Not regulated for transport

# TRIMLOGIC

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

---

**Overland transport** Not regulated for transport

**Transport by sea** Not regulated for transport

**Air transport** Not regulated for transport

## SECTION 15: Regulatory information

### 15.1. US Federal regulations

The final product is considered an article and not hazardous in its final form under normal conditions of use according to 29CFR 1910.1200. The ingredients contained within this product are not expected to be bioavailable under normal conditions of use.

### 15.2. US State regulations

The final product is considered an article and not hazardous in its final form under normal conditions of use according to 29CFR 1910.1200. The ingredients contained within this product are not expected to be bioavailable under normal conditions of use.

## SECTION 16: Other information

- Data sources** : This document has been prepared in accordance with the SDS requirements of the OSHA Hazard Communication Standard 29 CFR 1910.1200.
- Other information** : Within the meaning of the OSHA Hazard Communication Standard [29 CFR 1910.1200]: this mixture is considered an article in its final form. This article is not considered a hazard when used in a manner which is consistent with the labeled directions.

### GHS Full Text Phrases:

*This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.*
